Flutter

EXPERIENCE

Full-stack Developer Intern

CreativeHub

📅 October 2021 – April 2022

📍 Colombo, Sri-Lanka

- Responsible for the development and maintenance of websites, implementing effective solutions.
- Engineered reusable code for optimal performance with cutting-edge JavaScript libraries like REACTJS and NEXTJS.
- Architecture secure web applications with robust user input validation and data verification for the back end.
- Enhanced design and user experience using server-side CSS pre-processing platforms such as LESS and SASS.
- Streamlined functionality through AJAX and AXIOS, leveraging Git for efficient code version control and seamless team collaboration.

Full-stack Web & Mobile Developer

Self Employed

📅 March 2020 – Present

- An experienced Full-stack Web & Mobile Developer proficient in React.js, React Native, Flutter, Angular, Express.js, and more technologies.
- A Proven experience in freelancing, delivering high-quality projects on both web and mobile platforms.

PROJECTS

Web-Based Soft Drink Management System

Client : IOne Marketing (University final project)

- Developed a full stack web application system using ASP.Net Core, JavaScript, JQuery, and Microsoft SQL Server.
- Prioritizing office and managerial automation for improved business efficiency.

Travel Blog

- Created a MERN Stack Web Application and Website for interactive travel exploration through user-generated blogs.
- Implemented an efficient admin management system to oversee and manage blogs separately.

Gym Management System

- Built a streamlined full-stack gym automation system with easy booking functionalities and efficient management of members, trainers, and package plans.
- Deployed for testing at <https://gym.v4codes.com/>.

Inventory and POS System

- Designed a user-friendly inventory and POS system with efficient transaction handling and automated inventory management using C# and SQLite.
- Ensured robust security with user authentication and access control, conducting thorough testing and debugging for reliable performance.
